- Collaborate with a team of developers to design and develop web applications.
- Conduct thorough testing and debugging to ensure application functionality and performance
- Continuously learn and apply best practices for code quality, security, and performance optimization.

Part-time – Midi Technology

JAN 2023 – APRIL 2023

- Collaborated closely with the development team to implement client-specified features and functionalities.
- Conducted thorough testing and debugging for smooth operation and optimal performance, while continuously improving code quality, security, and performance through adherence to industry standards and best practices.

SKILLS

- Programming languages: JavaScript, HTML, CSS
- Frontend development: ReactJS, TailwindCSS
- Database: MySQL, MS SQL Server, Firebase
- Version control: Git
- Graphic Tools: Adobe Photoshop, Figma
- Responsive web design and mobile-first development
- Strong problem-solving and debugging skills
- Attention to detail and ability to meet project deadlines
- Continuous learning and adaptability to new technologies

HOBBIES & INTERESTS

I lead an active lifestyle playing badminton, attend workshops to learn, make videos, and create websites to explore my passion for technology.

MY PROJECTS

- Implemented a user registration and login system with authentication and authorization features.
- Integrated APIs to fetch and display real-time data on a web dashboard.
- Optimized website performance by implementing best practices, such as code minification and image optimization.
- Implemented responsive design techniques to ensure cross-platform compatibility.
